Welcome Letter

Raimundo Mateos

IPA President

Dear colleagues,

It is a great pleasure for me to offer you the most cordial welcome to the 2016 IPA International Meeting.

This event is the result of a coordinated effort between the International Psychogeriatric Association and the Taiwanese Society of Geriatric Psychiatry, which I am proud to propose as a model of collaboration for IPA affiliated societies. The organizing and scientific committees have worked intensely to make possible an event that we are sure will be stimulating from the professional point of view. If we add to this fact the proverbial Taiwanese hospitality, I have no doubt it will be a success.

On behalf of the International Psychogeriatric Association we thank you for attending this Meeting.
