Towards Mental Health Care for all Older Adults

Final Program

#IPASanFran2016

ABOUT IPA

Founded in 1982, the International Psychogeriatric Association (IPA) is a unique and diverse professional healthcare community promoting better geriatric mental health – across disciplines, across borders, and across geriatric issues. Psychiatrists, Scientists, Neurologists, Geriatricians, Primary Care Physicians, Epidemiologists, Nurses, Psychologists, Occupational Therapists, Social Workers and many other healthcare professionals come to the IPA community from all over the world to discuss, learn, share and research information about behavioral and biological aspects of geriatric mental health.

IPA Member Benefits

- Subscription to *International Psychogeriatrics*, IPA's multidisciplinary peer-reviewed journal published monthly
- Subscription to the *IPA Bulletin*, IPA's membership newsletter
- Reduced rates and access to IPA congress and meetings
- IPA Online – the IPA website – including the IPA Member Area with special features including access to fellow members and *The IPA Complete Guide to Behavioral and Psychological Symptoms of Dementia (BPSD)*
- Participation in IPA Member Forums, IPA's in-person and online groups which enable members to meet, communicate, and collaborate with IPA colleagues around the world. Groups include: Regional Initiative Forums (groups by geographic areas); Professional Discipline Forums (groups such as nurses, psychologists, primary care physicians, social workers, and occupational therapists); and Shared Interest Forums (interest groups including long term care, young onset dementia, testamentary capacity and others)

WELCOME MESSAGE

Dear Colleagues,

On behalf of IPA and Congress Organizing Committee co-chairs, Helen Lavretsky and Lon Schneider we are excited to welcome you to the 2016 IPA International Congress in San Francisco, CA. This year we celebrate the 18th year of bringing together a global network of professionals in the field of psychogeriatrics to the IPA International Congresses.

The theme of the Congress, *Towards Mental Health Care for all Older Adults*, will feature world-renowned professionals sharing their knowledge and expertise in workshops, plenaries, symposia, free/oral communication, posters and more. The Scientific Committee, under the leadership of co-chairs, Martin Prince and Heii Arai, developed a strong and interdisciplinary scientific program. A special thank you to all of the committee members that helped contribute to the program; your dedication to IPA is greatly appreciated.

I look forward to meeting you at the many educational and networking events throughout the Congress!

Warm Regards,

Raimundo Mateos
IPA President

CONGRESS COMMITTEES

Dear Colleagues,

It gives us great pleasure to join IPA President, Raimundo Mateos, in welcoming you to the 2016 IPA International Congress in San Francisco, CA.

In the past decade, the field of geriatric mental health has grown to embrace global health and solutions to global aging by promising cures for major neuropsychiatric disorders of aging that can improve lives of our patients and their families. Improved understanding of the biology of Alzheimer's and other dementia causing diseases, late life depression and suicide, sleep disorders, anxiety disorders, delirium and others, provides an optimistic view that, at least in some cases, "cures" might be forthcoming in the professional lifetimes of younger IPA members. At the same time, global aging will increase numbers of older people who will require mental health care in the decades to come. Hence, responsibility of the international and multidisciplinary field of Psychogeriatrics is to balance care for all of our patients and their families without exception and increase access to care for all older adults around the world.

This year's IPA Congress focuses on the main theme of accessibility to mental health services for older adults to improve treatment and prevention of the neuropsychiatric disorders of aging. We have selected a keynote, plenaries, symposia, free communication and poster sessions on topics that encompass the broad spectrum of Psychogeriatrics ranging from understanding novel neuroimaging methods, to methods of conducting clinical trials and advances in drug development, to the medicolegal issues of capacity assessment. These are just a few of the exciting topics of discussion that will be at the 2016 International Congress.

We hope that you will take this opportunity to expand your knowledge and broaden your professional networks during daily sessions and local programs. You will learn something new and experience the diversity of topics and backgrounds that makes the IPA community so unique. We look forward to seeing you at the many educational symposia, poster sessions, workshops and site visits to local care facilities.

On behalf of the members of the Organizing Committee, Scientific Committee and Local Organizing Committee, we wish you a pleasurable and informative few days during this Congress. Thank you for joining us!

2016 IPA AWARDS

2016 IPA Junior Research Awards in Psychogeriatrics

Presented in conjunction with IPA Congresses, the IPA Junior Research Awards in Psychogeriatrics are an example of IPA's commitment to presenting groundbreaking work to its members and developing new leaders. These prestigious awards were created to encourage and reward junior researchers and recognize the best, original, unpublished research in the field of Psychogeriatrics.

We applaud all of those who submitted their work and we encourage everyone to attend the Junior Research Award winner's session taking place on Wednesday, 7 September from 13:15 - 14:45 in Continental Ballroom 7-8.

First Place Winner

Elijah Mak, United Kingdom

Multi-modal MRI investigation of volumetric and microstructural changes in the hippocampus and its subfields in mild cognitive impairment, Alzheimer's disease, and dementia with Lewy bodies

Second Place Winner

Harris Eyre, Australia

A randomized controlled trial of Kundalini yoga in mild cognitive impairment

Third Place Winner

Sarah Robertson, United Kingdom

Proxy rated quality of life of care home residents with dementia: A systematic review

We want to express our sincere appreciation to the Junior Research Award selection committee for their conscientious work:

Nicola Lautenschlager, Australia

Martin Cole, Canada

Mary Ganguli, United States

Huali Wang, PR China

Leon Flicker, Australia

Helen Chiu, Hong Kong

SYMPOSIUM 6: SEVERE BEHAVIOUR RESPONSE TEAMS – ADDRESSING THE UNIQUE NEEDS OF INDIVIDUALS WITH VERY SEVERE BPSD, THROUGH A PERSON-CENTRED BIOPSYCHOSOCIAL PERSPECTIVE

Continental Ballroom 5

The Severe Behaviour Response Teams (SBRT) commenced national operations across Australia in November 2015 led by HammondCare. Key components of the service, believed to be the first of its type in the world, include rapid and responsive in reach to residential aged care facilities, and an emphasis on expert behavioural (rather than primarily pharmacological) management. The session will cover 3 themes – the experience and response of supporting people with very severe BPSD internationally; the Australian response to BPSD (from Dementia Behaviour Management Advisory Services to Severe Behaviour Response Teams); the first 12 months of implementation, lessons learned and results.

Speaker: Marie Alford, Australia

CONCURRENT SCIENTIFIC SESSIONS

15:15 – 16:45

FREE/ORAL COMMUNICATION 3: TREATMENT AND BIOLOGICAL MARKERS OF TREATMENT RESPONSE

Continental Ballroom 1-2

- Vilazodone inhibits pro-inflammatory gene expression and immunologic activation in geriatric depression
Helen Lavretsky
- Impact of sedative reduction, via a multifaceted intervention, on long-term care facility residents
Daniel J. Hoyle, Juanita Louise Westbury, Ivan Bindoff, Lisa Clinick, Gregory Peterson
- Atypical Antipsychotics as Add-on Treatment in Late Life Depression
Sibel Cakir, Zeynep Senkal
- The prevalence and cognitive correlates of drugs with potential risk of dementia
Hege Kersten

FREE/ORAL COMMUNICATION 4: CAREGIVER ISSUES

Continental Ballroom 7-8

- Final outcomes of the 'RedUSE' expansion: a national multi-strategic, interdisciplinary initiative aimed at reducing antipsychotic and benzodiazepine use in Australian Long Term Care Homes

- The conditions of prescribing of antipsychotic medications in residential aged care: the HALT project
Fleur Harrison, Monica Cations, Tiffany Jessop, Allan Shell, Lynn Chenoweth, Henry Brodaty

SYMPOSIUM 11: MAGNETIC SEIZURE THERAPY AND NEW FINDINGS IN THE CLINICAL PRACTICE OF ELECTROCONVULSIVE THERAPY IN THE ELDERLY

Continental Ballroom 5

- The use of ECT in neurological disorders in the geriatric population
Adriana Hermida, United States
- Historical Overview and latest theories of the mechanisms of action of ECT
George Petrides, United States
- The PRIDE Study: Efficacy Results
Charles H. Kellner, United States
- Magnetic Seizure Therapy
Mustafa Husain, United States

S12: THE ART OF BECOMING A LEADER IN GERIATRIC PSYCHIATRY: LEARN FROM THE EXPERTS

Continental Ballroom 9

This session is an interactive workshop that provides a unique leadership training opportunity by two prominent leaders: Dr. Luanne Thorndyke, MD, Vice Provost of Faculty Affairs at the University of Massachusetts Medical School and immediate past Chair of the American Association of Medical Colleges Group on Faculty Affairs, and Dr. Tatyana Shteinlukht, MD, PhD, Director of ECT service in the Department of Psychiatry, University of Massachusetts Medical School.

Speaker: Tatyana Shteinlukht, United States

CONCURRENT SCIENTIFIC SESSIONS

13:15 – 14:45

SYMPOSIUM 13: RISK FACTORS AND BIOMARKERS FOR NEURODEGENERATION (AAGP SYMPOSIUM)

Continental Ballroom 1-2

- [F18]FDDNP-PET Brain Binding Patterns in Military Personnel with Suspected Chronic Traumatic Encephalopathy
Gary Small, United States
- Olfactory Identification Deficits, Cognitive Decline and Alzheimer's Disease
Davangere P. Devanand, United States

SCIENTIFIC PROGRAM - Thursday, 8 September

- Amyloid-B, Neuropsychiatric Symptoms and the Risk of Incident Mild Cognitive Impairment: The Mayo Clinic Study of Aging
Janina Krell-Roesch, United States

SYMPOSIUM 14: IPA MEMBER FORUM (BPSD SHARED INTEREST): CRISIS IN PATIENTS WITH EXTREME BPSD

Continental Ballroom 7-8

- A seven-tiered model on BPSD
Brian Draper, Australia
- TIME — Targeted Interdisciplinary Model for Evaluation and Treatment of Neuropsychiatric Symptoms
Sverre Bergh, Norway
- Waalbed-III study, determinants of extreme agitation and factors leading to a crisis
Debby Gerritsen, The Netherlands
- How to manage a patient with a BPSD crisis: diagnosis and treatment for the BPSD-patient bringing dignity to the patient and to the caregivers
Inger-Marie Tjernaes, Norway

FREE/ORAL COMMUNICATION 6: DEMENTIA & ALZHEIMER'S DISEASE

Continental Ballroom 3

- Subjective experience of people with Alzheimer's disease participating in the physical activity trial Fitness for the Ageing Brain Study II (FABS II)
Nicola Lautenschlager, Osvaldo Almeida, Leon Flicker, Elizabeth Cyarto, Dina Logiudice, Keith Hill, David Ames, Christopher Ethern-beer, Gerard Byrne, Kana Appadurai, Kay Cox
- Common variations at CLU are associated with lipid levels in Alzheimer's disease
Lu Hua Chen
- Detecting changes in computer-use behaviours as an indicator of early cognitive decline: a feasibility study
Samuel Couth, Gemma Stringer, Ann Geldson, Joseph Mellor, Iracema Leroi
- A Norwegian twin study of heritability and environmental factors in Alzheimer's disease and other dementias
Astrid Liv Mina Bergem, Nikias Siafarikas, Thomas S. Nilsen, Per Magnus, Tor Atle Rosness, Bjørn H. Strand, Henrik Schirmer, Gunn P. Knutsen, Knut Engedal, Espen Bjertness
- Past, Present and Future of The 10/66 Dementia Research Group
Daisy Miguelina Acosta
- Role of Apathy in Functional Decline in Alzheimer's Disease
Hillel Grossman, Carolyn Zhu, Mary Sano

FREE/ORAL COMMUNICATION 7: DEMENTIA - MILD COGNITIVE IMPAIRMENT

Continental Ballroom 5

- Subjective Memory Complaint and Objective Memory Performance: Moderating Effect of Cognitive Impairment
Ah-Rong Lee, Ji-Hye Lee, Soowon Park, Yongjoon Yoo, Jung-Hae Youn, Seung-Ho Ryu, Jun-Young Lee, Seong Jin Cho
- The Detection, Diagnosis and Impact of Cognitive Impairment Amongst Over 65s admitted to an Irish University-Affiliated, Tertiary-Referral Hospital
Clodagh Power, Helena Bates, Mike Healy, Elaine Greene

Nicholas T. Bott, Nathan Hantke, Victoria Liou-Johnson, Sherry A. Beaudreau
- The Neuropsychological Profile of Remote Traumatic Brain Injury in Older Veterans
Allison R. Kaup, Carrie Peltz, Kimbra Kenney, Joel H. Kramer, Ramon Diaz Arrastia, Kristine Yaffe
- The operationalization of mild cognitive impairment for dementia prediction: less is more
Henry Brodaty, Liesbeth Aerts, John D. Crawford, Megan Heffernan, Nicole Kochan, Simone Reppermund, Kristan Kang, Kate Maston, Brian Draper, Julian Trollor, Perminder Sachdev
- Measuring computer use behaviours to detect cognitive and functional impairment in early dementia
Gemma Stringer, Samuel Couth, Laura Brown, Daniela Montaldi, Ann Geldson, Joseph Mellor, Iracema Leroi

SYMPOSIUM 15: THE DEPRESSED-FRAIL PHENOTYPE; A SUBTYPE OF LATE-LIFE DEPRESSION THAT CALLS FOR ACTION!

Continental Ballroom 9

- Frailty, a neglected geriatric syndrome in the treatment of late-life depression
Richard C. Oude Voshaar, The Netherlands
- The Depressed-Frail Phenotype: a role for metabolic dysregulation?
Radboud M. Marijnissen, The Netherlands
- The Depressed-Frail Phenotype: Results from the Health ABC study
Patrick J. Brown, United States
- The Depressed-Frail Phenotype: Results from a clinical cohort of depressed older patients
Matheus H.L. Arts, The Netherlands

Plenary IV:

Miia Kivipelto, Sweden

Dementia Prevention among at Risk Persons

Edo Richard, The Netherlands

Dementia Prevention from a Population Perspective

15:15 – 16:15

Continental Ballroom 5

SCIENTIFIC PROGRAM - Friday, 9 September

Plenary V: Prevention of Late-Life Depression & Anxiety in Low & Middle Income Countries: An Intervention Development Project (DIL)

Charles Reynolds, III, United States

08:30 – 09:30

Continental Ballroom 5

CONCURRENT SCIENTIFIC SESSIONS

10:00 AM – 11:30 AM

FREE/ORAL COMMUNICATION 8: DEMENTIA-YOUNG ONSET

Continental Ballroom 1-2

- What is the contribution of potentially modifiable environmental and lifestyle risk factors to young onset dementia? Preliminary results from the INSPIRED study
Monica Cations, Adrienne Withall, Fiona White, Julian Trollor, Clement Loy, Henry Brodaty, Perminder Sachdev, Peter Gonski, Apo Demirkol, Robert G. Cumming, Lee-Fay Low, Brian Draper
- Why aren't people with young onset dementia and their caregivers using formal services?

ALZHEIMER'S RESEARCH AND PREVENTION FOUNDATION

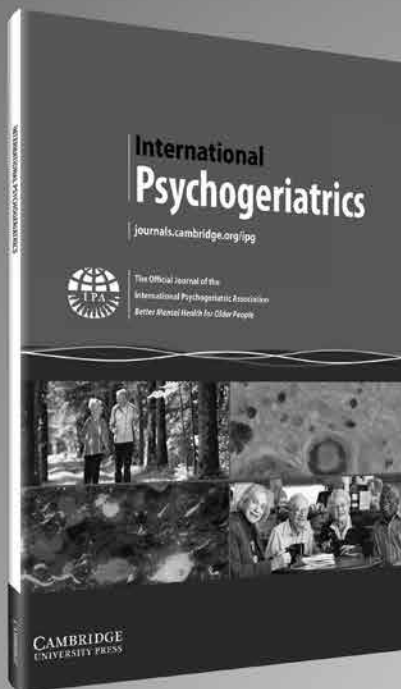

The ARPF provides an alternative to the conventional, "magic bullet" drug approach. We believe that you can help yourself, right now, by utilizing a holistic or integrative medical approach, based on the lifestyle tools we advocate. Modern medical research reveals that all of the aspects of the ARPF's Four Pillars of Prevention Plan, including physical and mental exercise, especially when used together, help build a healthier and stronger brain and memory.
